Orientations for potential authors Philosophical Discussions Journal

Discusiones Filosóficas Journal, is an open-access Article Processing Charge (APC) scientific publication that circulates biannually in the national and international scope. It is assigned to and financed by the Faculty of Arts and Humanities and the Research and Graduate Studies Vice-Rector's Office at Universidad de Caldas. It receives primarily original and unpublished collaborations in the form of articles that report research results as well as reviews, translations and presentations on its topics of interest (philosophy and philosophy of literature, if possible, from the analytical tradition). These collaborations are published in printed and digital format (PDF) in Spanish, English or Portuguese, unless the authors explicitly request the translation into Spanish. The Journal also invites readers to send short replica texts to published articles, as well as reviews of recently published specialized books.

Discusiones Filosoficas Journal publishes, on the consideration of the Editorial Committee, reviews and reproductions or translations of other works or articles previously published in another academic media or scientific journal. For this purpose, the sources and origin of the original text, as well as the respective permissions for publication must be clearly indicated.
